

# Carbon Reduction Plan

Supplier name

KSD SUPPORT SERVICES LIMITED

Publication date

27<sup>th</sup> May 2025

## Commitment to achieving net zero

**KSD Support Services Ltd** is committed to achieving net zero emissions by 2045

### Baseline emissions footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline year: 2024	
Additional details relating to the baseline emissions calculations:	
Based on KSD Facilities Management Business	
Baseline year emissions:	
Emissions	Total (tCO <sub>2</sub> e)
Scope 1	200
Scope 2	45
Scope 3 (included sources)	160
Total emissions	405

### Current emissions reporting

Reporting year: 2025	
Emissions	TOTAL (tCO <sub>2</sub> e)
Scope 1	To be measured December 2025
Scope 2	To be measured December 2025
Scope 3 (included sources)	To be measured December 2025
Total emissions	To be measured December 2025

## Emissions reduction targets

In order to continue our progress to achieving net zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the next five years to **300** tCO<sub>2</sub>e by 20**29**. This is a reduction of **26**%.

## Carbon reduction projects

### Completed carbon reduction initiatives

The following environmental management measures and projects have been completed or implemented since the 20**24** baseline. The carbon emission reduction achieved by these schemes equate to **105** tCO<sub>2</sub>e, a **26**% reduction against the 20**24** baseline and the measures will be in effect when performing the contract.

Working with suppliers to reduce their emissions.

Ordering products from more local suppliers

Employing/Relocating mobile engineers to be closer to their place of work.

### Future carbon reduction initiatives

In the future we hope to implement further measures such as:

Continue above measures.

Review the feasibility of utilising more electric vehicles

## Declaration and sign off

This Carbon Reduction Plan has been completed in accordance with PPN 006 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard<sup>13</sup> and uses the appropriate government emission conversion factors for greenhouse gas company reporting.<sup>14</sup>

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements (where required), and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard.<sup>15</sup>

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

### Signed on behalf of the supplier:

Date: 23<sup>rd</sup> May 2025
